1.0 | Report Summary

This report covers the structural design of a tree fort in Novato, California, following the California Building Code (CBC). The fort is supported by a mature tree with a 24-inch diameter trunk.

The report illustrates the use of tags, commands and scripts including:

- a rivt-report.py script that assembles the report.
- shell commands that < run an external program > .
- external urls and section links between documents.
- various forms of math symbols.
- external function importing and processing.
- the use of AI in preparing
